

**SEVENTH INTERNATIONAL CONFERENCE  
SUSTAINABLE POSTHARVEST AND  
FOOD TECHNOLOGIES**

**INOPTEP 2021**

**April 18<sup>th</sup> – 23<sup>rd</sup>, 2021, VRSAC, SERBIA**

# **BOOK OF ABSTRACTS ZBORNIK APSTRAKATA**

**SEDMA MEĐUNARODNA KONFERENCIJA  
ODRŽIVE POSLEUBIRAJUĆE I  
PREHRAMBENE TEHNOLOGIJE**

**INOPTEP 2021**

**18 – 23. april, 2021, VRŠAC, SRBIJA**

## SCIENTIFIC COMMITTEE / NAUČNI ODBOR

(Scientific Committee conducted a review of conference proceedings)

### INTERNATIONAL MEMBERS:

- Prof. dr Marko Dalla Rosa, University of Bologna, Italy  
Prof. dr Margarida Cortez Vieira, University of Algarve, Faro, president of ISEKI, Portugal,  
Prof. dr Gerhard Schleining, BOKU University, Vienna, Austria,  
Prof. dr Dorota Kręgiel, Lodz University of Technology, Poland,  
Prof. dr Paola Pittia, University of Teramo, Italy  
Prof. dr Silva Cristina, Universidade Católica Portuguesa, Lisbon, Portugal,  
Prof. dr Harris Lazarides, Aristotle University of Thessaloniki, Greece,  
Prof. dr Tajana Krička, University of Zagreb, Zagreb, Croatia,  
Prof. dr Zuzana Hlavačová, Slovak University of Agriculture, Nitra, Slovakia,  
Prof. dr Zsuzsanna Fustos, Corvinus University of Budapest, Budapest, Hungary,  
Prof. dr Richard Gladon, Iowa State University, SAD,  
Prof. dr Costas Biliaderis, Aristotle University of Thessaloniki, Greece,  
Prof. dr Vlasta Vozarova, Slovak University of Agriculture, Nitra, Slovakia,  
Prof. dr Vangelče Mitrevski, "St. Kliment Ohridski" University, Bitola, North Macedonia  
Prof. dr Stavros Vougioukas, University of California, Davis, SAD,  
Prof. dr Drago Šubarić, University of Osijek, Osijek, Croatia  
Prof. dr Ayşe Tülin Öz, Osmaniye Korkut Ata University, Osmaniye, Turkey,  
Dr Branimir Šimić, University of Osijek, Osijek, Croatia,  
Prof. dr Cosmin Salasan, Agriculture Science University, Timisoara, Romania  
Prof. dr Izabela Witońska, Lodz University of Technology, Poland,  
Prof. dr Verica Dragović-Uzelac, University of Zagreb, Zagreb, Croatia  
Prof. dr Neven Voča, University of Zagreb, Zagreb, Croatia and  
Prof. dr Antonio Modesto Chaves, State University of Southwestern Bahia, Itapetinga, Brazil

### NATIONAL MEMBERS:

- Prof. dr Mirko Babić, University of Novi Sad, Faculty of Agriculture, Secretary general of the Society PTEP and national representative in ISEKI - FA.  
Prof. dr Ljiljana Babić, University of Novi Sad, Faculty of Agriculture,  
Prof. dr Milica Radosavljević, Maize research Institute "Zemun Polje", Belgrade,  
Prof. emeritus dr Dragan Škorić, Serbian Academy of Sciences and Arts, Chairman of the Village Committee,  
Dr Jovanka Lević, University of Novi Sad, Institute of Food Technology, Novi Sad,  
Prof. dr Filip Kulić, University of Novi Sad, Faculty of Technical Sciences, Novi Sad,  
Prof. dr Miloš Tešić, academic of Academy of Sciences and Arts of Vojvodina,  
Dr Olivera Đuragić, Institute of Food Technology, University of Novi Sad, Novi Sad,  
Dr Milka Vujaković, Agricultural station, Novi Sad,  
Dr Goran Todorović, Maize research Institute "Zemun Polje", Belgrade,  
Dr Lana Đukanović, Institute for Plant Protection and Environment, Belgrade  
Prof. dr Ljiljana Mojović, University of Belgrade, Faculty of Technology and Metallurgy, Belgrade, national delegate in ISEKI -FA,  
Prof. dr Maša Bukurov, University of Novi Sad, Faculty of Technical Sciences, Novi Sad,  
Prof. dr Aleksandra Dimitrijević, University of Belgrade, Faculty of Agriculture, Belgrade,  
Prof. dr Nebojša Novković, University of Novi Sad, Faculty of Agriculture, Novi Sad,  
Prof. dr Jelena Pejin, University of Novi Sad, Faculty of Technology, Novi Sad,  
Prof. dr Ivan Pavkov, University of Novi Sad, Faculty of Agriculture, Novi Sad,  
Dr Milivoj Radojčin, University of Novi Sad, Faculty of Agriculture, Novi Sad,  
Dr Siniša Bikić, University of Novi Sad, Faculty of Technical Sciences, Novi Sad, and  
Dr Vladimir Bugarski, University of Novi Sad, Faculty of Technical Sciences, Novi Sad

---

### Publisher / Izdavač

National Society of Processing and Energy in Agriculture, Novi Sad, Serbia  
Nacionalno društvo za procesnu tehniku i energetiku u poljoprivredi, Novi Sad,  
Trg Dositeja Obradovića 8

### Co-publisher / Suizdavač

Faculty of Agriculture, Novi Sad, Serbia  
Poljoprivredni fakultet, Novi Sad, Trg Dositeja Obradovića 8  
Editor in Chief / Glavni i odgovorni urednik: Prof. Dr. Mirko Babić

### Editors / Urednici

Prof. Dr. Milivoj Radojčin  
Prof. Dr. Filip Kulić  
Prof. Dr. Ivan Pavkov

For Publisher / Za izdavača: Dr. Velimir Lončarević

Technical editor / Tehnički urednik: Dr. Milivoj Radojčin, MSc. Krstan Kešelj

Printed by / Štampa: E- publishing, PTEP Society

Edition / Tiraž: 200

ISBN: 978-86-7520-531-9

E-mail: ptep@ptep.org.rs

**CONFERENCE ORGANIZERS:**

- UNIVERSITY OF NOVI SAD, FACULTY OF AGRICULTURE, DEPARTMENT OF AGRICULTURAL ENGINEERING, NOVI SAD  
- NATIONAL SOCIETY OF PROCESSING AND ENERGY IN AGRICULTURE

**CONFERENCE CO-ORGANIZERS:**

ISEKI - Food Association,  
Institute for Food Technology, Novi Sad,  
Institute of Field and Vegetable Crops,  
Maize Research Institute  
"Zemun Polje", Zemun,  
Faculty of Technology, Novi Sad i  
Faculty of Technical Science, Novi Sad.

**CONFERENCE HONORARY COMMITTEE:**

Prof. Dr. Nedeljko Tica, Dean Faculty of Agriculture, University of Novi Sad, Serbia,  
Branko Ružić, Minister, Ministry of Education, Science and Technological Development, Serbia,  
Prof. Dr. Zoran Milošević, Provincial Secretary for Higher Education and Scientific Research,  
Prof. Dr. Margarida Cortez Vieira, University of Algarve, Portugal, President ISEKI–Food Association,  
Čedomir Božić, Provincial Secretary for Agriculture, Water Management and Forestry,  
Dr. Nebojša Ilić, Director, Institute for Food Technology, University of Novi Sad, Novi Sad, Serbia,  
Dr. Branka Kresović, Director, Maize Research Institute "Zemun Polje", Belgrade,  
Dr Jegor Miladinović, Director, Institute of Field and Vegetable Crops, Novi Sad,  
Prof. Dr. Biljana Pajin, Dean, Faculty of Technology, Novi Sad,  
Prof. Dr. Rade Doroslovački, Dean Faculty of Technical Science, University of Novi Sad, Novi Sad, Serbia,  
Dr. Velimir Lončarević, President of National Society Of Processing And Energy in Agriculture, Institute of Field and Vegetable Crops, Novi Sad and  
Prof. Dr. Mirko Babić, General secretary of National Society Of Processing And Energy in Agriculture, Faculty of Agriculture, University of Novi Sad, Novi Sad, Serbia

**ORGANIZATORI KONFERENCIJE:**

-UNIVERZITET U NOVOM SADU,  
POLJOPRIVREDNI FAKULTET  
DEPARTMAN ZA POLJOPRIVREDNU  
TEHNIKU, NOVI SAD  
- NACIONALNO DRUŠTVO ZA PROCESNU  
TEHNIKU I ENERGETKU U  
POLJOPRIVREDI, NOVI SAD,

**SUORGANIZATORI KONFERENCIJE:**

ISEKI – Food association, Beč, Austrija,  
Institut za prehrambene tehnologije, Novi Sad  
Institut za ratarstvo i povrtarstvo, Novi Sad,  
Institut za kukuruz  
"Zemun Polje", Zemun,  
Tehnološki fakultet, Novi Sad i  
Fakultet tehničkih nauka, Novi Sad.

**POČASNI ODBOR KONFERENCIJE:**

Prof. dr Nedeljko Tica, Dekan Poljoprivrednog fakulteta, Univerzitet u Novom Sadu, Novi Sad,  
Branko Ružić, Ministar prosvete, nauke i tehnološkog razvoja  
Republike Srbije,  
Prof. dr Zoran Milošević, Pokrajinski sekretar za visoko obrazovanje i naučnoistraživačku delatnost, APV,  
Prof. dr Margarida Cortez Vieira, Univerzitet Algarve, Portugal, Predsednik ISEKI–Food Association,  
Čedomir Božić, Pokrajinski sekretar za poljoprivredu, vodoprivredu i šumarstvo,  
Dr Nebojša Ilić, Direktor Instituta za prehrambene tehnologije, Univerzitet u Novom Sadu, Novi Sad,  
Dr Branka Kresović, Direktor Instituta za kukuruz "Zemun Polje", Beograd – Zemun,  
Dr Jegor Miladinović, Direktor Instituta za ratarstvo i povrtarstvo, Novi Sad,  
Prof. dr Biljana Pajin, Dekan Tehnološkog fakulteta, Novi Sad,  
Prof. dr Rade Doroslovački, Univerzitet u Novom Sadu, Dekan fakulteta tehničkih nauka, Novi Sad,  
Dr Velimir Lončarević, Predsednik Nacionalnog društva za procesnu tehniku i energetiku u poljoprivredi, Institut za ratarstvo i povrtarstvo Novi Sad i  
Prof. dr Mirko Babić, Generalni sekretar Nacionalnog društva za procesnu tehniku i energetiku u poljoprivredi, Poljoprivredni fakultet, Univerzitet u Novom Sadu, Novi Sad.

**SUPPORTERS:**

Ministry of Education, Science and  
Technological Development  
Government of the Autonomous  
Provincial Secretariat for Higher Educa-  
tion and Scientific Research,  
Secretariat for Agriculture, Water  
Management and Forestry

**CONFERENCE ORGANIZING  
COMMITTEE:**

Dr. Velimir Lončarević, President of Na-  
tional Society Of Processing And Energy in  
Agriculture, Institute of Field and Vegetable  
Crops, Novi Sad, Serbia,  
Prof. Dr. Mirko Babić, General Secretary,  
University of Novi Sad, Faculty of  
Agriculture, Novi Sad, Serbia,  
Prof. Dr. Filip Kulić, Faculty of Technical  
science, University of Novi Sad, Novi Sad,  
Slavko Ivanišević, BSc,  
"Jedinstvo" – Apatin, Serbia,  
Milivoj Radin, BSc, Institute of Field and  
Vegetable Crops, Novi Sad, Serbia,  
Danka Dujović, BSc, "Al Dahra" Belgrade,  
Serbia,  
Prof. Dr. Ivan Pavkov, Faculty of  
Agriculture, University of Novi Sad, Serbia  
Prof. Dr. Milivoj Radojčin, Faculty of  
Agriculture, University of Novi Sad, Serbia  
Miladin Kostić, MSc. Institute of Field and  
Vegetable Crops, Novi Sad, Serbia,  
Snježana Pupavac, BSc.  
"EKO-Lab", Beograd, Serbia,  
Mirko Protić, ing. "Agromarket"  
"Agroseme", Kikinda, Serbia,  
Dr Olivera Đuragić, Institute for Food  
Technology, University of Novi Sad, Serbia,  
Marko Nenadić, BSc, "Uljarice Bačka",  
Novi Sad, Serbia,  
MSc. Zoran Stamenković,  
Tehcnical Secretary, Faculty of Agriculture,  
University of Novi Sad, Novi Sad  
MSc. Krstan Kešelj, Serbia,  
Tehcnical Secretary, Faculty of Agriculture,  
University of Novi Sad, Novi Sad, Serbia.

**POKROVITELJI KONFERENCIJE:**

Ministarstvo prosvete, nauke i tehnološkog  
razvoja, Republike Srbije,  
Vlada AP Vojvodine:  
Pokrajinski sekretarijat za visoko  
obrazovanje i naučnoistraživačku delatnost,  
Sekretarijat za poljoprivredu, vodoprivredu i  
šumarstvo

**ORGANIZACIONI ODBOR  
KONFERENCIJE:**

Dr Velimir Lončarević, predsednik  
Nacionalnog društva za procesnu tehniku i  
energetiku u poljoprivredi, Institut za  
ratarstvo i povrtarstvo Novi Sad, Srbija,  
Dr Mirko Babić, generalni sekretar skupa,  
Poljoprivredni fakultet, Univerzitet u Novom  
Sadu, Novi Sad, Srbija,  
Prof. dr Filip Kulić, Fakultet tehničkih nauka,  
Univerzitet u Novom Sadu, Novi Sad, Srbija,  
Slavko Ivanišević, dipl.ing,  
"Jedinstvo" – Apatin, Srbija,  
Milivoj Radin, dipl.ing, Institut za ratarstvo i  
povrtarstvo, Novi Sad, Srbija,  
Danka Dujović, dipl.ing, „Al Dahra“ Beograd,  
Srbija,  
Prof. dr Ivan Pavkov, Poljoprivredni fakultet,  
Univerzitet u Novom Sadu, Novi Sad, Srbija,  
Prof. dr Milivoj Radojčin, Poljoprivredni  
fakultet, Novi Sad, Srbija,  
Mr Miladin Kostić, Institut za ratarstvo i  
povrtarstvo, Novi Sad, Srbija,  
Snježana Pupavac, dipl. ing.  
"EKO-Lab", Beograd, Srbija,  
Mirko Protić, ing. "Agromarket"  
"Agroseme", Kikinda, Srbija,  
Dr Olivera Đuragić, Naučni institut za  
prehrambene tehnologije, Novi Sad, Srbija,  
Marko Nenadić, dipl.ing, "Uljarice Bačka",  
Novi Sad, Srbija,  
Zoran Stamenković, dipl.mast.  
tehn. sekretar, Poljoprivredni fakultet,  
Univerzitet u Novom Sadu, Novi Sad, Srbija,  
Krstan Kešelj, dipl.mast.  
tehn. sekretar, Poljoprivredni fakultet,  
Univerzitet u Novom Sadu, Novi Sad, Srbija.

Edible vegetable oils are a very important part of everyday human diet. The most prominent feature of vegetable oils is that their nutritional value is higher than that of animal oils. Sunflower oil is one of the top five edible oils in the world, having a full priority in Serbia, due to the high availability of raw materials over others. Due to the presence of essential linoleic (omega 6) and oleic (omega 9) fatty acids, as well as alpha-tocopherol (vitamin E), it has a high nutritive value. On the other hand, rapeseed oil contains all three important essential unsaturated fatty acids: oleic (omega 9), linoleic (omega 6) and linolenic (omega 3) fatty acids.

Food authentication is the process by which a food product is verified as complying with its label description. The characterization and authentication of oils and fats is a subject of great importance for market and health aspects.

The aim of this paper was to determine the possibility of applying a gas chromatography device with a mass spectrometric detector (GC-MS) coupled to a newly developed mathematical model to determine the proportion of individual oils in simulated blended oil samples.

Oil samples were collected from Processing Technology of Vegetable Oils and Fats Unit at the Department of Food Preservation Engineering, Faculty of Technology Novi Sad, University of Novi Sad, Republic of Serbia. Seven oil blends with different proportions of sunflower and rapeseed oils were prepared for GC-MS analysis (20:80%, 30:70%, 40:60%, 50:50%, 60:40%, 70:30%, and 80:20%). The fatty acids present in the simulated oil blends were derivatized into corresponding fatty acid methyl esters (FAMES) using a reagent trimethylsulfonium-hydroxide (TMSH). Quantification of dominantly present fatty acids: palmitic, linolenic, linoleic, oleic and stearic, was performed using an AMDIS algorithm of the ChemStation software (Agilent Technologies). Obtained numeric values of the peak surface areas of dominant fatty acids were processed using a newly developed mathematical model, in order to estimate the proportion of individual oil in each simulated oil blend prepared. Experimentally obtained estimated values of the content of sunflower oil in the blend with rapeseed oil, were compared with the set of theoretical values for the prepared blends. Linearity across the investigated proportion range along with a very high correlation coefficient (0.955) were obtained, thus indicating a strong potential of the provided methodology in verifying authenticity of edible vegetable oils in the food market and determining the proportion of each oil in a blend.

**Keywords:** edible vegetable oils, sunflower oil, rapeseed oil, GC-MS, mathematical model, oil authentication and fraud detection

## NOVI METOD PROCENE SASTAVA SMEŠA JESTIVIH ULJA: ULJE SUNCOKRETA I ULJANE REPICE

E-mail: [marko.ilic@uns.ac.rs](mailto:marko.ilic@uns.ac.rs)

Jestiva biljna ulja su veoma važan deo svakodnevne ljudske ishrane. Najprominentnija karakteristika biljnih ulja je da je njihova hranljiva vrednost veća od vrednosti životinjskih ulja. Suncokretovo ulje je jedno od pet najboljih ulja na svetu, koje ima veliki prioritet u Srbiji zbog velike dostupnosti sirovine u odnosu na druge. Zbog prisustva esencijalnih masnih kiselina, linolne (omega 6) i oleinske (omega 9), kao i alfa tokoferola (vitamin E), ima visoku hranljivu vrednost. S druge strane, ulje uljane repice sadrži sve tri važne esencijalne nezasićene masne kiseline: oleinsku (omega 9), linolnu (omega 6) i linolensku (omega 3) masnu kiselinu.

Autentifikacija hrane je postupak kojim se potvrđuje usaglašenost prehrambenog proizvoda sa njegovim opisom na etiketi. Karakterizacija i autentifikacija ulja i masti je tema od velike važnosti sa tržišnog i zdravstvenog aspekta.

Cilj ovog rada bio je da se utvrdi mogućnost primene uređaja za gasnu hromatografiju sa masenim spektrometrom kao detektorom (GC-MS) i novorazvijenog matematičkog modela za određivanje udela pojedinačnih ulja u simuliranim uzorcima smeša ulja.

Uzorci ulja su dobijeni sa odeljka Tehnologije biljnih ulja i masti na Departmanu za inženjerstvo konzervisane hrane, Tehnološki fakultet Novi Sad, Univerzitet u Novom Sadu, Republika Srbija. Za GC-MS analizu je pripremljeno sedam smeša ulja sa različitim odnosima ulja suncokreta i uljane repice (20:80%, 30:70%, 40:60%, 50:50%, 60:40%, 70:30% i 80:20%). Masne kiseline prisutne u simuliranim smešama ulja su derivatizovane u odgovarajuće metil estre masnih kiselina (FAME – Fatty Acid Methyl Ester), primenom reagensa trimetilsulfonijum-hidroksid (TMSH). Kvantifikacija dominantno prisutnih masnih kiselina: palmitinske, linolenske, linolne, oleinske i stearinske, izvršena je pomoću AMDIS algoritma softvera ChemStation (Agilent Technologies). Dobijene numeričke vrednosti za površine pikova dominantnih masnih kiselina obrađene su pomoću novorazvijenog matematičkog modela, kako bi se odredio udeo pojedinačnog ulja u svakoj pripremljenoj simuliranoj smeši ulja. Eksperimentalno dobijene procene vrednosti sadržaja suncokretovog ulja u smeši sa repičinim uljem, upoređene su sa setom teorijskih vrednosti za pripremljene smeše. Dobijena je linearna zavisnost u istraženom opsegu udela, kao i veoma visok koeficijent korelacije (0.995), što ukazuje na snažan potencijal pružene metodologije u verifikaciji autentičnosti jestivih biljnih ulja na prehrambenom tržištu i određivanju udela svakog ulja u smeši.

**Ključne reči:** jestiva biljna ulja, ulje suncokreta, ulje uljane repice, GC-MS, matematički model, autentifikacija ulja i otkrivanje prevara
